

# WHEELED DUMPER - D14

## Standard D14 Specs

With 30,000 lbs. of carrying capacity, the D14 effortlessly tackles the task of moving heavy materials. It is equipped with three steering modes – 2-wheel front steer, 4-wheel steer, and crab steer – ensuring exceptional maneuverability.

DIMENSIONS	
Full Length	17' 9"
Full Height	10' 6"
Full Width	8' 4"
Min. Ground Clearance	1' 5"
Frame Type	Rigid
Front Axle	8° Oscillating Automatic Limited Slip Planetary Reduction at Hubs
Rear Axle	Fixed; Fully Locking Differential Planetary Reduction at Hubs
Turning Radius	16' 11"
Standard Tire Size	Trelleborg 500/60R22.5"
Approach Angle	35°
Machine Weight	13,600 LBS

ENGINE	
Manufacturer	Perkins
Model	904J-E36TA
Emissions Cert.	US Tier 4 Final/EU Stage V
Horsepower	121 HP
Electrical System	12V
Battery	(1) 12V 50Ah, 1000 CCA AGM
Fuel Capacity	46.2 GAL

HYDRAULICS	
Transmission	4-speed HST
Drive Pump Max Flow	47.3 GPM
Drive Pump Max Pressure	6,962 PSI
AUX Pump	16.5 GPM
Steering and Brake Pump	12.7 GPM

PERFORMANCE	
Max. Carrying Capacity	30,865 LBS
Top Speed	21.7 MPH
Gradability	40% (22°)
Dumping Angle	70°
